

## *Push Button Switch Modules*

For those looking to give their home or office a unique, different look, PDL's new push button switch modules blend tradition with technology, adding a sleek upmarket appearance to New Zealand's most popular range of switchgear.

The new switch modules are available in black or white and up to 6 modules can be mounted into a single wall plate. For ease of use, each contains a blue LED indicator to show whether the switch is on or off.

### *Features:*

- Optional blue LED indicator included
- Latching and momentary versions available
- Black or white colour options
- 600 Series cover plates available in white, black, stainless steel, brushed bronze or polished brass.
