PDL ICONIC®

Range Overview

pdl.co.nz/iconic

Life Is On

by Schneider Electric

PDL Iconic® Collection

The standard Iconic collection from PDL by Schneider Electric is joined by two completely new looks with the sophisticated Styl and fresh Essence skin ranges.

PDL Iconic Styl skin

PDL Iconic Essence skin

PDL Iconic is a modern future proof collection based on a slim, sleek and clean design that is easy to customise and upgrade.

Loaded with clever features

Game changing modular mechanisms and grids with changeable skins and rockers for unrivalled customisation, now and in the future.

With ControlLink, lights can be dimmed from multiple locations.

Locking bar allows simple mechanism reorientation and sturdy locking for a quick and easy install, reducing the chance of mechanism pushbacks.

Iconic's translucent edges allow the skins to pick-up background colours for a design that blends in with any wall colour.

Customisable and future-ready

Interchangeable Iconic, Styl and Essence skins provide great options to customise to suit specific decor and lifestyle.

Innovative protective flaps help prevent screw access after installation, allowing skins to be changed easily at any time.

Iconic switches are quick and easy to personalise with pictogram rockers that even your customers can change.

Bluetooth Low Energy delivers simple configuration and control of dimmers, timers and time clocks via the Wiser Room app on your phone or tablet.

Iconic is future-ready, allowing for style and function updates in the coming years.

Upgrade to 'Skinability'

Iconic® is based around a unique grid design, with a choice of three different ranges of skins that simply clip on. Once the grids have been installed by an electrician, it's easy for anyone to change the skins at any time. You simply clip off the existing skin and clip on the new design.

PDL Iconic® skins

The standard Iconic range of skins offers unlimited flexibility with standard white skins, and subtle colour variants that complements any interior décor. They are available with translucent edges that infuse with wall colours.

PDL Iconic® Styl skins

Iconic Styl has an irresistibly beautiful design made from durable anodised aluminium for a quality look in every home. Iconic Styl adds elegance, colour and modern simplicity with three metallic finishes to offer flexibility to a broad range of décor styles.

PDL Iconic® Essence skins

With smooth round wooden edges made from real timber, Iconic Essence has an unmistakably luxurious look and feel. Setting a new benchmark for quality and style in residential products, the natural finish of Iconic Essence will enhance your living space.

Future-proof 'skinability'

Being able to change skins makes it easy for your customers to upgrade to a fresh new look in the future as new skin colours and designs become available.

Clever Functionality

Night Walk sensor light

3-socket USB charger with shelf

Modular design

Iconic® features changeable skins, innovative design and enhanced connectivity.

In this all-new platform, we've thought of everything including new sockets, switches, dimmers and timers, USB chargers, new safety features, Bluetooth Low Energy connectivity and more. We've also designed Iconic with features that greatly simplify installation, and developed new products for smarter homes.

300 series mechanisms

Iconic switches and electronic accessories feature the 300 series mechanisms designed for optimum flexibility in up to 6-gang grids. The grids make changing from vertical to horizontal orientation simple, and locking bars reduce the chance of mechanism pushbacks.

Great innovations

Iconic includes a 3-gang USB charger with shelf. A Night Walk skin, which replaces the standard double socket skin, features an integrated motion sensor. When it detects movement it switches on LEDs that illuminate the way when someone gets up at night, without disturbing others.

Clever efficiency

Iconic electronic accessories deliver clever efficiency to the home. Bluetooth Low Energy connectivity and our own ControlLink technology offer simple configuration and multi-way control. The Wiser Room app lets you configure it all exactly to your customer's taste.

Enhanced connectivity

Iconic includes a comprehensive range of options for all modern network connectivity requirements. With mechanisms for RJ45 networking, HDMI sockets and audio cable entry plates, you have everything you need for complete home networking.

Sockets With a Difference

Iconic® features innovations like pre-mounted screws, screw covers and in-line terminals.

Clever Switch Innovation

Iconic® grids feature screw covers, drill guides and 300 series mechanisms for easy installs and customisation.

Electronic Accessories

Smart device app configuration and our own Controllink connectivity

USB mechanism with built-in current limitation and rotating head

PIR motion sensor mechanism

Electronic push-button switches integrate with standard plates

Iconic® electronic accessories are designed for clever functionality.

Electronic accessories fit Iconic switch grids. Secured in place with the mechanism locking bar, they can be easily changed to suit vertical or horizontal orientation. The range includes standard electronic accessories such as rotary dimmers and USB chargers, as well as Bluetooth connected smart accessories such as dimmers, time clocks and switches.

Rotary and push-button dimmers

Iconic electronic products include both push-button and rotary dimmers. Push-button dimmers offer multi-way dimming over standard wiring using Controllink. The tactile push-button turns the load on/off or dims up or down. The Wiser Iconic Bluetooth dimmer offers superior LED dimming with app control and configuration via the Wiser Room app over Bluetooth connectivity. Rotary dimmers adjust light from 1-100% with configurable minimum brightness settings. They come with built-in, re-settable, short circuit and over-temperature protection, and are optimised for compatibility assurance with TPD series LEDs.

USB chargers

Iconic USB chargers have a patented rotatable head for easy reorientation. They also include a patented current management technology, which manages the output current to prevent overheating while minimising charge times.

Electronic Switches

Electronic Switches are programmable via the Wiser Room app to provide On/Off, 24-hour, 7 day scheduling by month. They're ideal for scheduling operating times for appliances like towel rails, garden lights, or hot water booster elements, and can be set to automatically track with seasonal sunrise and sunset changes. Iconic time clocks also function as push-button timers providing extra functionality and ability to manually override schedules at any time.

PIR motion sensor

The Iconic PIR motion sensor mechanism is simple to install and configure with front mounted light level and timer adjustment. It is ideal for hands free lighting control in entry ways, WIR, pantries, hallways or stairs.

Electronic Accessories (cont'd)

Wiser Room app

With Controllink and Bluetooth Low Energy for simple connectivity.

Multi-way dimming and switching control has become easy with Iconic®.

Controllink connectivity

Controllink allows for multi-way control of lights, and for dimmers and time clocks to work together for enhanced functionality.

Wiser Room app

Iconic 3-wire electronic products can be configured and controlled via the Wiser Room app on most tablets or phones to perform programmed tasks like:

- Switch and dim lights with configurable schedules
- Exhaust fan run-on after bathroom lights have been switched off
- Operate heated towel rails and/or lights on 24hr/7day schedules
- Automatic seasonal sunrise and sunset tracking
- Easily reset to original settings

Bluetooth Low Energy (BLE)

Iconic 3-wire mechanisms connect to the Wiser Room app via Bluetooth Low Energy. BLE minimises energy consumption, connecting only when required and does not require any gateway devices.

Connectivity without complexity

Controllink and BLE together offer unprecedented flexibility with standard wiring. BLE is available on most phones and tablets for connectivity.

Network Connectivity

Simplified network connector combinations

Cable Entry Plate

Aesthetically appealing cable management

Iconic® includes a wide range of network connectivity products for a professional home network.

Iconic has a broad offer for home data, TV and audio connections, allowing you to easily meet customer requirements for networking, audio and video installations.

Audio, video and networking

Iconic includes a wide range of audio, visual and networking mechanisms to suit any home application. TVs can be connected to gaming consoles and Pay TV boxes through F-Type, PAL and HDMI mechanisms. Sound systems can be connected via RCA mechanisms and RJ45. RJ45 mechanisms can be used for connecting all the smart devices to the home network.

Flexibility of 300 series mechanism grids

No two home networks are the same, which is where the range of audio, video and networking mechanisms make every setup simple and easy. You can use combinations of mechanisms in up to 6-gang grids, ensuring that a broad range of end user requirements are met with the Iconic range.

Networking

Our range includes both Cat6 and Cat6A copper LAN solutions. Cat6 provides peace of mind with reliable performance and bandwidth. Cat6A is a high end solution for larger or more demanding applications.

Cable Entry Plate

The Iconic Cable Entry Plate is a cost-effective way to allow cables to pass through the wall cleanly and easily and are ideal for placing behind TVs to ensure the cables are kept secure and hidden.

How to Order

With set prefixes, part numbers, skin codes and colour initials, ordering the Iconic® range is simple. For example:

Iconic		395	C	**
Iconic Styl	S	395	C	**
Iconic Essence	E	395	C	**
Prefix = Design		C = Skin		** = Finish

New colour codes and finishes

There are five new finishes for Iconic. Styl is available in silver, crowne and silver shadow anodised aluminium. Essence is available in arctic white and ash grey matt finish skins, with real birch timber edges.

Iconic Styl	SV	Silver	Silver anodised aluminium, plus cool grey gloss plastics.
	CE	Crowne	Gold anodised aluminium, plus warm grey gloss plastics.
	SH	Silver Shadow	Anthracite anodised aluminium, plus anthracite gloss plastics.
Iconic Essence	AW	Arctic White	Real birch timber trim, plus vivid white matt plastics.
	AG	Ash Grey	Real birch timber (stained dark), plus new ash grey coloured matt plastics.

Corresponding grids and skins

Each skin design carries the part number that corresponds to the grid with which it is compatible. For example:

Iconic Essence double socket in arctic white

395	G	«	E	395	C	AW
Part number	G = Grid		E = Iconic Essence	Same as grid part number	C = Skin	** = Finish

Standard Iconic 3 gang switch in anthracite

383GM10	«	383	C	AN
Part number		Same as grid part number	C = Skin	** = Finish

Iconic Styl 3 gang switch in silver

383GM10	«	S	383	C	SV
Part number		S = Iconic Styl	Same as grid part number	C = Skin	** = Finish

Iconic Essence 3 gang switch in arctic white

383GM10	«	E	383	C	AW
Part number		E = Iconic® Essence	Same as grid part number	C = Skin	** = Finish

Select a double socket grid plate and choose a decorative skin

Grid Plate	Skin Choices		
Iconic platform	Iconic Styl	Iconic Essence	Iconic
395G	S395C-SV	E395C-AW	395C-VW
	S395C-CE	E395C-AG	395C-WY
	S395C-SH		395C-CY
			395C-AN

G = Grid Plate S = Styl E = Essence C = Skin

Ordering a double socket with USB in anthracite

Grid Plate	USB Mechanism	Adaptor	Skin
395XUAG	342USB2-VW	300USB2C-AN	395XC-AN
G = Grid Plate			AN - Anthracite

Order process

Grid Plate	Mechanisms	Skin	Rockers / Knobs
Select grid. Grids end in a G suffix.	Select one or more mechanisms to load into the grid if the grid is unloaded. Mechanisms with a VW extension, come with a Vivid White rocker or knob included with the product.	All skins come pre-loaded with plain rockers of the same colour / finish of the skin.	Choose pictogram rocker, special rocker, dimmer knob in required colour. Non-standard pictogram rockers can be ordered as special items.

Ordering a 2-gang switch with dimmer in silver shadow

Grid Plate	Mechanisms	Skin	Rockers / Knobs
Iconic platform	354RDMLED-VW	S382C-SH	
382G	381M10		S300KBC-SH

Ordering a switch with a pre-loaded mechanism

Grid Plate	Skin Choices		
Iconic platform	Iconic Styl	Iconic Essence	Iconic
381GM10	S381C-SV	E381C-AW	381C-VW
	S381C-CE	E381C-AG	381C-WY
	S381C-SH		381C-CY
			381C-AN
